BEWHERE

Mobile IoT

SOLUTION OVERVIEW

Low-power 5G Asset Tracking offering introduces disruptive price points and small form factors to expand the market for managing inventory, tools, equipment and goods.   Both an uncomplicated BeWhere Web application as well as API's to integrate to existing software platforms – like Geotab for example.

SOLUTION BENEFITS

Well managed inventory, tools and equipment significantly improves efficiency, customer satisfaction and reduces downtime. Integration with also Geotab allows T-Mobile customers to economically track non-powered assets on a familiar screen.

BMP BUSINESS MOBILITY PARTNERS
