

# Wireless Office Phone

## OVERVIEW

Replace your existing fixed landline system with a cost effective wireless solution. Wireless Office Phone enhances existing phone systems allowing you to keep existing hardware and enjoy the convenience and savings of mobile technology.

## FEATURES AND BENEFITS

- Replace landline service with reliable wireless service
- Keep your current number and continue using your existing hardware
- Cost effective communication for small businesses
- Take your home phone with you when you're gone for extended periods of time

## TARGETED VERTICALS/SEGMENTS

- Legacy 3G solution customers
- Office Communication
- Business Owners
- Significant cost savings over fixed landline service
- Homeowners (residential svc)
- Secondary Homeowners

## QUALIFYING QUESTIONS/CONVERSATION STARTERS

- Would your business like to save money on your office phone system?
- Would you like the freedom to rearrange your office environment without having to worry about phone jack locations?

## TOP PAIN POINTS THAT YOUR SOLUTION OR PRODUCT UNIQUELY ADDRESSES

1. Easy to use and easy to set up
2. No wall jack required – use your phone anywhere you have an outlet and strong cellular signal
3. Enjoy voicemail, call forwarding and conference calling at no extra cost
4. Battery backup – stay in touch even if you lose power
